Data & Modeling + Planning & Policy Work Group Update

Calumet Stormwater Collaborative

Phase 1 Foundational Activities

Activity 1: Establish baseline of existing green infrastructure

Activity 2: Establish baseline of non-overbank flooding

Activity 3: Develop and begin to execute systems to provide relevant training and strengthen management systems to bolster green infrastructure implementation & maintenance

Activity 4: Establish baseline of municipal capacity in stormwater management

Baseline of existing green infrastructure?

GI Baseline Inventory Needs Assessment

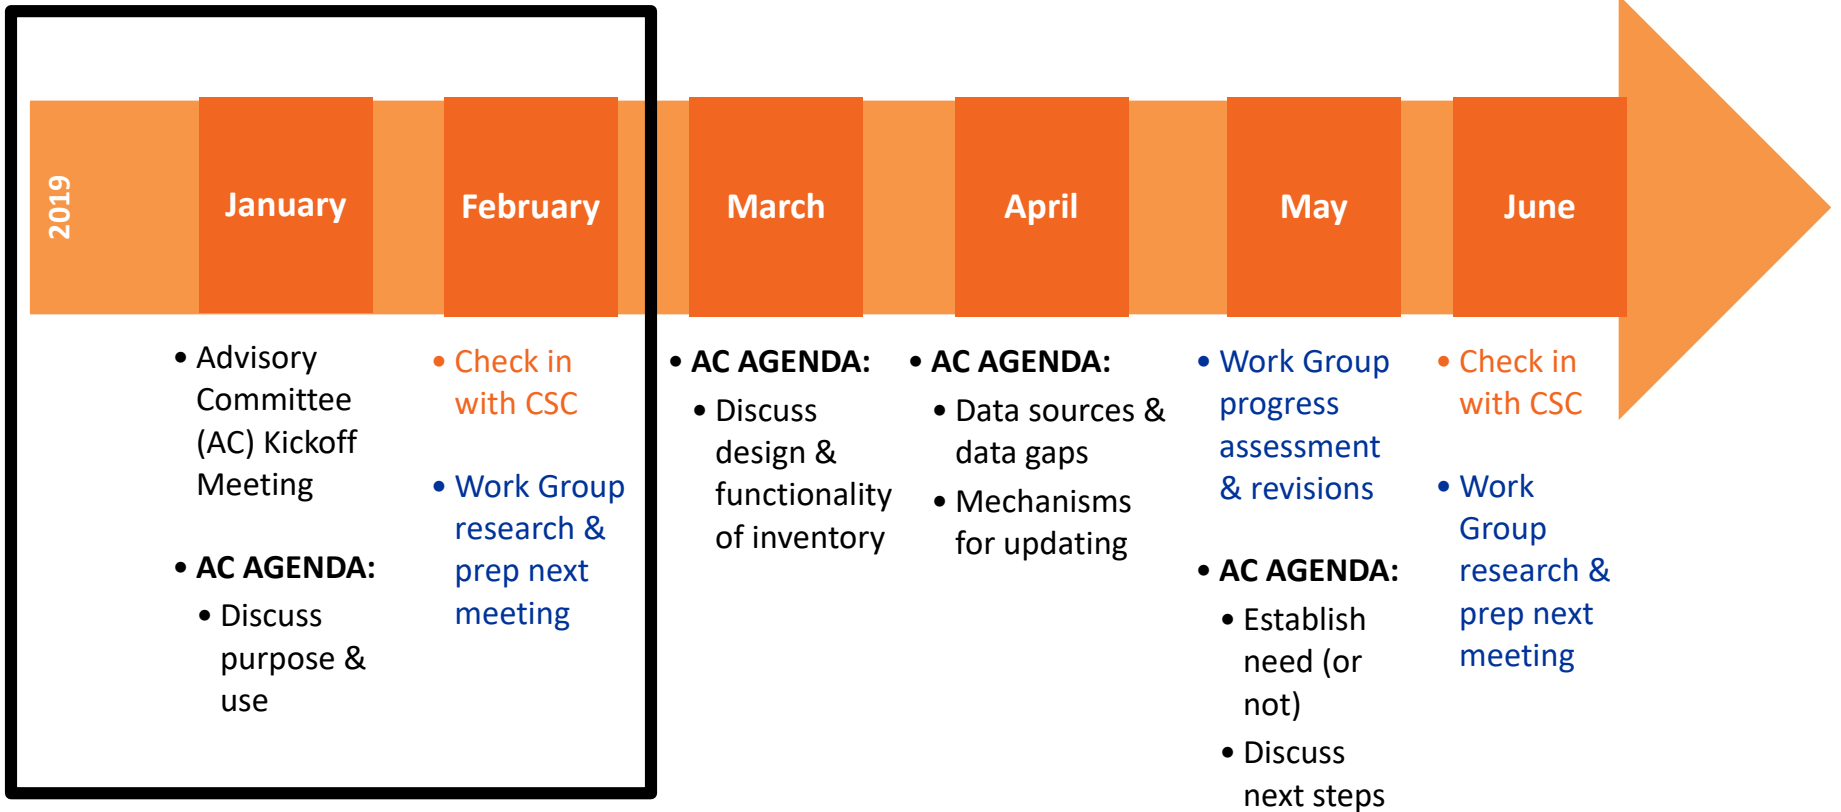

In this process we are...

- Defining the purpose
- Identifying data sources
- Learning about other inventories
- Intentionally describing the ideal inventory
- Documenting rationale and next steps

We are not...

- Mapping green infrastructure
- Analyzing existing green infrastructure
- Building an inventory

Green Infrastructure Baseline Inventory Needs Assessment Timeline

Jan 28 Kick-Off: Group Input

Purpose: what should the overall purpose of the GI inventory be?

Users: who would the inventory be helpful to and how?

Data-dump: previous similar efforts; initial thoughts on data sources

Phase 1 Foundational Activities

Activity 1: Establish baseline of existing green infrastructure

Activity 2: Establish baseline of non-overbank flooding

Activity 3: Develop and begin to execute systems to provide relevant training and strengthen management systems to bolster green infrastructure implementation & maintenance

Activity 4: Establish baseline of municipal capacity in stormwater management

Phase 1 Foundational Activities

Relationship-Mapping!

Who do we want to engage/build capacity with?

Government officials

- Frontline employees

- Village manager

- Directors (Public works, IT, Finance, HR)

- Elected officials (Mayors, Councilmembers)

- Council of Governments

Community leaders

- NPOs

Consultants

- Water management

Relationship-Mapping!

10 charts around the room

51 Calumet municipalities

Groups by general proximity

Start – individual brainstorming

GOALS: document individual relationships; see who you all know!

Next mtg: identify how they relate to other contacts, and where are gaps?

Individual Activity

1. Individual brainstorm – one contact per post-it
2. Add contact ROLE; Add your NAME at the bottom of each post-it
3. Add your post-its to the Municipality on the charts – 20 minutes

Contact: Sam Brown

Role: Rich Township Assessor;
Former trustee of Matteson

CSC Mbr: Adam Slade

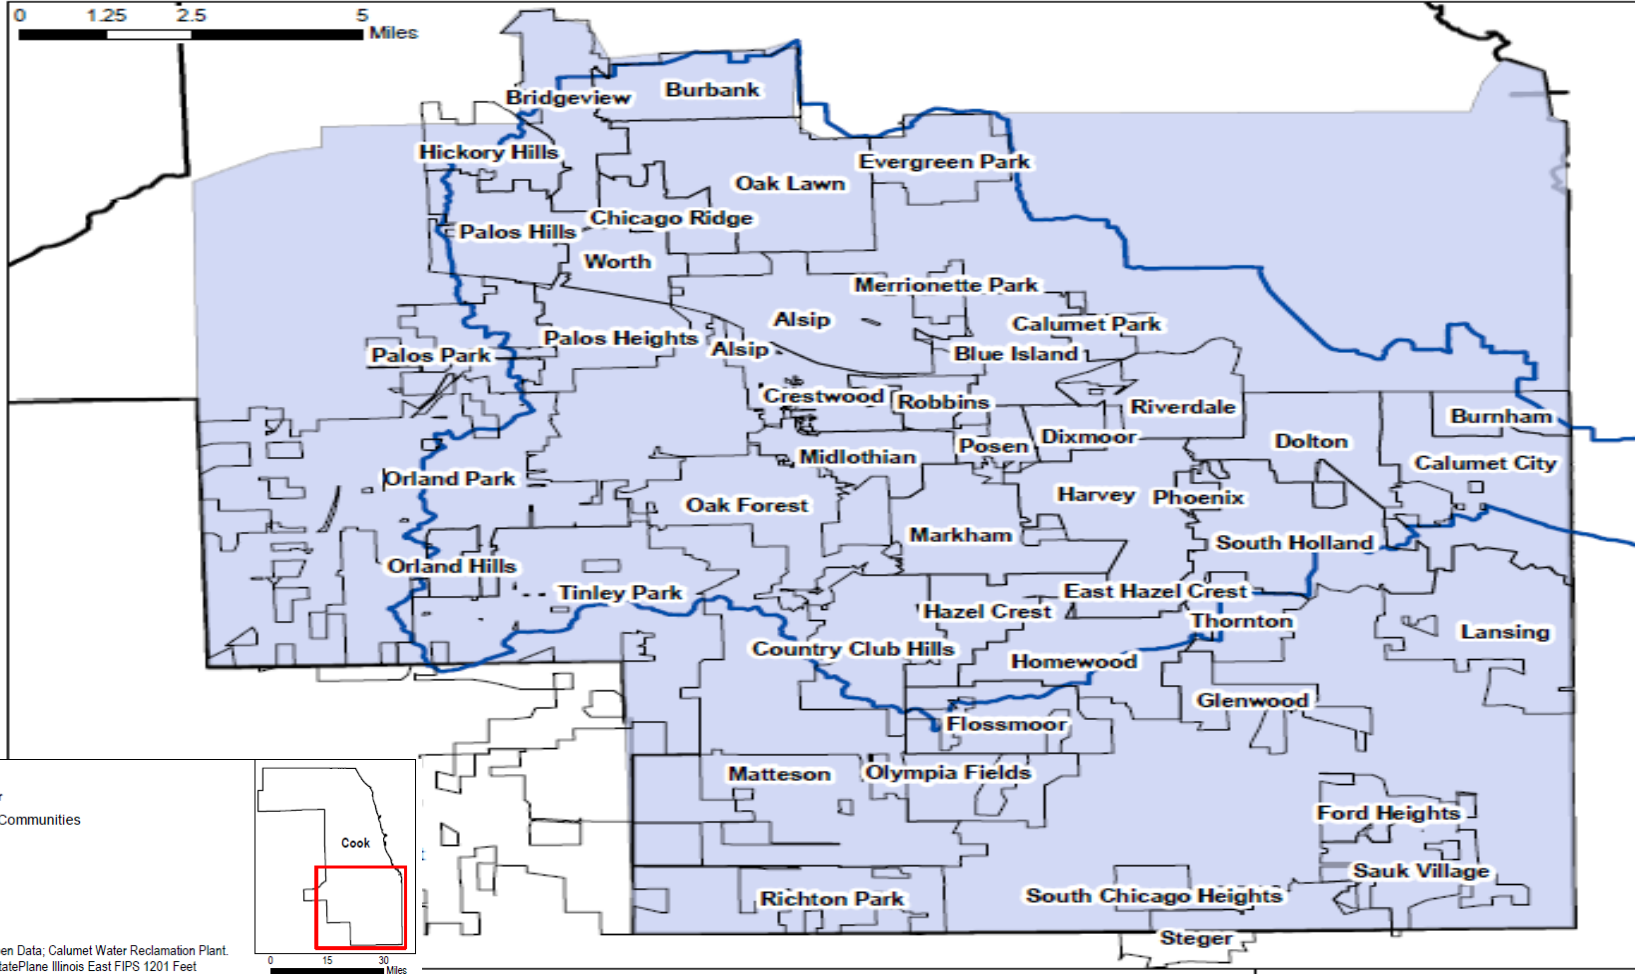

*Adam places this Post-It at Group 8
poster, under Matteson!*
