CONSOLIDATED PLANS REVIEWED
(in alphabetical order)

ARLINGTON HEIGHTS 1995 CONSOLIDATED PLAN EXECUTIVE SUMMARY

The 1990 Census enumerated **19 homeless persons on April 1, 1990**, with an estimated 90% of them staying in shelters. In **1994 PADS** served **630 persons**, of which **33 were from Arlington Heights**.

AURORA 1995 CONSOLIDATED PLAN EXECUTIVE SUMMARY

Aurora lies in both Kane and DuPage Counties. A January 1994 point-in-time count of Aurora's shelters found **11 homeless families** (for a total of 36 people) and 211 homeless individuals. Of these persons, 16% were mentally ill, 59.5% had drug and/or alcohol problems, and 3.6% had both mental illness and drug and/or alcohol problems.¹

CHICAGO

1995 Consolidated Plan Executive Summary

In Fiscal Year **1994**, Chicago funded shelter programs served greater than **18,000** clients.

City of Chicago 1999 Action Plan

According to this Plan, in 1998 Chicago received \$25 million under SuperNOFA, and in 1999 is due to receive \$32 million under it. Because Chicago has determined that family housing is a priority in 1999, many of the proposed programs for 1999 are for transitional and permanent housing for families.² No figures are given as to the size of the homeless population in Chicago; however, many programs estimate the size of the population that they will serve. Several examples follow.

1998 COOK COUNTY ANNUAL ACTION PLAN

No figures as to the number of homeless persons are given in this report. In 1997 Cook County received a grant under HUD’s SuperNOFA (Notice of Funding Availability) for Continuum of Care Homeless Assistance for eight collaborative projects in the amount of \$3,735,367.⁵

DUPAGE COUNTY

1995 Consolidated Plan Executive Summary

This summary noted that very little information is available about the unsheltered homeless population in DuPage County. Of the homeless in shelters, almost 15% are under age 17, and 54% fall between the ages of 18 and 39.

1999 Action Plan

The total amount of funding to meet homeless needs from CDBG and ESG is \$367,489. The money allocated to DuPage PADS is expected to benefit 1,240 persons.

ELGIN 1995 CONSOLIDATED PLAN EXECUTIVE SUMMARY

Elgin, in Kane County, reports that in February 1993 the average night occupancy of the two homeless service providers totaled 70, of whom 24 were children⁶

EVANSTON 1995 CONSOLIDATED PLAN EXECUTIVE SUMMARY

No numbers as to the size of the homeless population were presented in this Plan. The Plan states: “The number of homeless persons in Evanston, including non-residents, is often a supply created demand. This means that as long as Evanston has a high quality homeless shelter which accepts persons regardless of their community of origin, and a strong public transportation system, homeless people will be drawn to Evanston.”⁷

JOLIET 1995 CONSOLIDATED PLAN EXECUTIVE SUMMARY

Joliet, the largest city in Will County, estimated in this 1995 Plan that there were **2,023 homeless persons** in Joliet.

LAKE COUNTY

1995-1999 CONSOLIDATED PLAN FOR LAKE COUNTY

The Plan stated that one service provider estimated that there were 62 **homeless families per month in the County, and 54 single men and 19 single women** who were homeless.⁸ For this Consolidated Plan, the County counted as homeless those who were precariously housed and at risk of becoming homeless as well as those without shelter. The Lake County Board of Health Advisory Board and Coordinating Council for Mental Health, Substance Abuse and Developmental Disabilities Services (AB/C Council) compiles statistics from homeless providers on a monthly basis, and according to its **March 1994 survey, there were 497 unduplicated homeless persons in Lake County**, of which 269 were in families (67 total families), and 228 were individuals.⁹

Lake County 1998 Annual Action Plan

Lake County allocated over \$1,000, 000 for homeless services in this Plan: \$964,349 for transitional housing for the homeless, and \$108,000 for emergency shelter.¹⁰

MCHENRY COUNTY

Consolidated Housing and Community Development Plan for Fiscal Year 1995 Funds

This report uses numbers from PADS, a service provider in McHenry County, which operates shelters eight months of the year. The total number of guests for the six-month period from October 1994 through March 1995 was 157.¹¹ Additionally, two surveys' findings are reported. First, the *McHenry County Emergency Housing Survey—1993*, conducted by the Pioneer Center, found that:

- **95 – 100%** of all people requesting emergency housing assistance in 1993 were McHenry County residents.
- In 1993 McHenry County agencies spent at least **\$55,000** to house homeless people in motels.
- **1,850** requests for emergency housing assistance were received for a total of **4,700 people**.¹²

10 *Lake County 1998 Annual Action Plan*. P. 2.

11 *McHenry County Consolidated Community Development and Housing Plan for Fiscal Year 1995 Funds*. P. 54.

12 P. 55. These numbers do not include the number of persons who received shelter through PADS (240 from October 1992 through April 1993).

Second, *A Needs Assessment of People Seeking Emergency Housing Assistance, McHenry County, April 1993—March 1994* was prepared by the Woodstock Area Community Ministry. Thirteen agencies serving the homeless in McHenry County were interviewed. One question asked was whether clients need supportive services in addition to help with housing. Of the ten agencies responding, nine indicated that at least **75%** of their clients are in need of such services; seven of them indicated that 95% of their clients required these services.¹³

Figures from **PADS** showed a total of 202 homeless people, of which 39 were in families and 163 were individuals. PADS figures show 0 homeless individuals under 17 (but PADS does not serve that population), and 0 unsheltered homeless persons.¹⁴

2. McHenry County 1997 Annual Action Plan

According to this Action Plan, “homeless assistance and the retainage/production of affordable housing continues to be the County’s number one community development priority.”¹⁵ According to the County’s Continuum of Care Strategy, an estimated **1,630 homeless families lived in McHenry County in 1995**. The McHenry County Housing Authority reported that 868 individuals in the County receive Section 8 benefits, but that because only 122 units of Section 8 assistance have been received in the past ten years, a waiting list of over 1000 households now exists for Section 8 housing. Further, the Housing Authority reported that 200 households have no permanent place to live and move from shelter to friends to PADS, while another 200 households are doubled up with family members.¹⁶

3. McHenry County 1999 Annual Action Plan

McHenry County developed a Gaps Analysis Chart for this Plan, through which each agency serving the homeless identified gaps, and how the agencies’ projects would fill the gaps. No numbers are provided here as to the number of individuals identified. This Action Plan also includes detailed population and housing charts.

MOUNT PROSPECT 1995 CONSOLIDATED PLAN EXECUTIVE SUMMARY

Although the **1990 Census** listed only **13 homeless persons in Mt. Prospect**, the Village Human Services Department estimated that there were approximately **500 homeless persons in the village in 1994**.¹⁷
